

why GET TESTED

HIV Testing Services

LRADAC has partnered with South Carolina HIV/AIDS Council (SCHAC) to offer you free Rapid HIV testing. You may be eligible to receive additional testing for sexually transmitted infections, Hepatitis B and C (See #4 below).

1. **Finding out early can help you live a longer, healthier life.**
2. **Knowing your HIV status.**

HIV testing is the key to slowing the HIV epidemic. Knowing your HIV status could be one of the most important things you do. Diagnosing HIV early in the disease course improves your prognosis.

3. **If you know, you can look out for yourself — and the people you love.**

The earlier you know, the more you can do. Knowing early allows you to help yourself and the health of you partners.

4. **Some tests offer incentives.**

It's important to know the status of your health. By completing a short survey you may be eligible to receive a gift incentive and have additional testing for sexually transmitted infections, Hepatitis B and C testing.

5. **It's easy. It's free, fast, and confidential.**

You can take a Rapid HIV test while you are at LRADAC. Ask your counselor or case manager for more information today. You may also call Lucianda Smith directly at 803-726-9439.
